Entrance age for admission to the Kindergarten is five years of age on or before August 31st of the school year. Kindergarten training is not required for entrance into the first grade.

Entrance age to the first grade shall be six years of age on or before August 31st of the school year.

Students transferring from another state whose entrance age differs from Kansas shall be placed according to previous attendance records.

Birth certificates are required as proof of age for all Kindergarten or first graders who are enrolling for the first time. A state copy of the certificate from the state in which the student was born is the only certificate that will be accepted. Birth certificates must be turned into the school within 30 days of enrollment in accordance with K.S.A. law 72-53, 106.

Grade placement in the Northeast Unified School District 246 most often will be based upon an examination of previous school records.

Any pupil entering a Kansas school for the first time is required by state law to present certification that he/she has received or is in the process of receiving immunization against polio, mumps, diphtheria, rubella (German measles), measles (rubella), tetanus, and whooping cough. These immunizations shall be in accordance with the immunization schedules of the Kansas Department of Health and Environment. Students shall have until October 1st to complete this immunizations procedure, or they will be dropped from school until such time as it is satisfactorily completed. This requirement is waived for pupils whose parents present written statements asking for exception for reasons of health or religious beliefs.

Hepatitis B and Varicella (Chickenpox) immunizations will be required for school entry for Kindergarten students.

In accordance with state law a health assessment must be done within 12 months prior to school entry or by October 1st. The physical form, completed by a physician, must become part of the student's file. This is a requirement for all students entering Kindergarten.

Upon acceptance the out of district student is expected to be a contributing member to the school. They are expected to maintain satisfactory academic progress and not affect the day to day operation of the school through discipline issues and disruption. Out of district students are on a semester to semester basis. If at anytime the school feels the student is not meeting these expectations the school will inform the student that at the end of the semester the student will have to return to their home district.

ATTENDANCE

2000 - 2999

2000	Compulsory School Law
2100	Absences
2200	Tardies
2300	School Activities

2000 - COMPULSORY SCHOOL LAW

K.S.A. 1982 Supplement--72-1111. Compulsory school attendance. Every parent, guardian, or other person in the State of Kansas, having control over or charge of any child who has reached the age of seven (7) years and is under the age of eighteen (18) years, shall require such child to attend continuously each school year (1) a public school for the duration of the school term provided for in K.S.A. 1979 Supp. 72-1106, as amended; or (2) a private, denominational or parochial school taught by a competent instructor for a period of time which is substantially equivalent to the period of time public school is maintained in the school district in which the private, denominational or parochial school is located.

Truancy is defined for this policy the same as in K.S.A. 72-1113 as amended and which follows:

1. "Whenever a child is required by law to attend school and such child is not enrolled in a public or non-public school, such child is a truant"; 2. "Whenever a child is required by law to attend school and such child is inexcusably absent therefrom on either three (3) consecutive days or five (5) or more days in any semester, such child is truant." A child is inexcusably absent from school if the child is absent therefrom all or a significant part of a day without a valid excuse acceptable to the school employee(s) designated by the Board of Education to have responsibility for the school attendance of such a child.

For purposes of this policy, "a significant part of a school day" means "one-half (1/2) or more of the scheduled school day." One half (1/2) of a school day is three clock hours.

For purposes of this policy an "excusable absence" occurs when a pupil misses a significant part of a scheduled school day because of illness, appointments for health care, injury which prevents his attendance, attendance at another educational activity or on a trip approved by the school principal, or other absence the reason for which is acceptable to the principal. "Inexcusable absences" occur when there is no attempt to justify an absence, the reason given is not acceptable to the principal and/or the principal has reason to believe that the excuse offered may not be substantially correct and true.

2100 - ABSENCES

In general, it is the policy of the school to excuse pupils from school for worthwhile reasons and upon the written request of parents. The Principal will determine the importance of the request and shall ultimately decide upon the merits of each case. If absence from school seriously retards the pupil's progress and interferes with his/her school work, then conferences with parents will be held to inform them of these effects on the child's school progress.

Parents must call the office or send a note into the office within 3 days of the absence or the absence will not be excused.

A student will be counted absent from school if he/she is not present for the regular class schedule, except when on activities sponsored by the school. An excused absence may be allowed for other activities if requested by parents and approved by the Principal.

It is the student's responsibility to make up any work missed due to an excused absence. The student will have one day for each day absent to make up their assignments. An unexcused absence will also receive reduced credit.

EXCESSIVE PARENT VERIFIED ABSENCES: Once a student reaches 9 parent verified absences* per semester OR 18 parent verified absences for the school year, all subsequent absences will be classified as UNEXCUSED unless excused by a doctor's note or by our school nurse's aide.

EXCUSED PARENT VERIFIED ABSENCE: Verified by note or phone call from the parent. Includes illness, family trip, personal reasons, etc.
Parents must call the office by 10:00 am on the day of the absence or send a note into the office within 3 days of the absence or the absence will not be excused.

STUDENTS UNDER COURT SUPERVISION FOR TRUANCY: If a student is under court authority for informal or formal supervision, the court and school administration will only excuse absences verified by a doctor's note or by the school nurse. All other absences will be classified as UNEXCUSED. The school is required to send weekly attendance reports for all students under informal or formal supervision.

A certificate for perfect attendance is given at the end of the year to those with no absences.

2200 - TARDIES

Students are expected to arrive at school on time. School opens at 7:25 a.m. Breakfast is served in their classrooms starting at 7:45 a.m. School begins at 8:00 for all students.

Arrivals after the bell rings will be counted tardy. **Junior High students with excessive tardies can be considered truant, after 3 unexcused tardies in the same period, per semester, will result in a detention. Every tardy after that will result in a detention.**

An elementary student's late arrival at school before 10:00 a.m. will be counted as a tardy. Students arriving after 10:00 will be counted as half day (morning) absent.

Students arriving after start of school should report to the office for admittance.

Doctor and dental appointments, funerals, and school activities are considered excusable tardies. Prior notification would be appreciated.

2300 - SCHOOL ACTIVITIES

Students who plan to attend a school function are required to be in school the day of and the day after that function unless approval is granted from the Principal.

4300 - BUS RIDER RULES

During the course of regular student transportation in school district vehicles the Board of Education views this service as a privilege extended to students conforming to district rules of conduct.

Previous to loading (on the road and at school):

1. Be on time at the designated school bus stops - keep the bus on schedule.
2. Stay off the road at all times while waiting for the bus. Bus riders conduct themselves in a safe manner while waiting.
3. Wait until the bus comes to a complete stop before attempting to board.
4. Be careful in approaching bus stops.
5. Bus riders are not permitted to move toward the bus at the school loading zone until the buses have been brought to a complete stop.

While on the bus

1. Keep hands and head inside the bus at all times after entering and until leaving the bus.
2. Assist in keeping the bus safe and sanitary at all times.
3. Remember that loud talking and laughing or unnecessary confusion diverts the driver's attention and may result in a serious accident.
4. Treat bus equipment as you would valuable furniture in your own home. Damage to seats, etc., must be paid for by the offender.
5. Bus riders should never tamper with the bus or any of its equipment.
6. Leave no books, lunches or other articles on the bus.
7. Keep books, packages, coats and all other objects out of the aisles.
8. Help look after the safety and comfort of small children.

NO EATING OR DRINKING OR CHEWING OF GUM ON THE BUS AND NO TOBACCO PRODUCTS OR MEDICATION NOT PRESCRIBED BY A PHYSICIAN.

4400 - BUS DISCIPLINE PROCEDURES

Bus drivers are encouraged to maintain discipline and assure that the students adhere to these rules in the course of their duties. Verbal warnings to students are appropriate when the driver believes they will be effective in correcting misbehavior.

If the bus driver is not successful in correcting misbehavior through verbal prompts and warnings, the driver should contact the rider's parent(s) to seek assistance in correcting the inappropriate behavior.

At such time that a bus driver believes the infraction is serious in nature or continual warnings to a student are ineffective to bring about compliance, the driver will file the appropriate written notice with the building principal. The appropriate building administrator will take the following disciplinary actions:

1. Upon receipt of the 2nd written report within a semester from a bus driver concerning a student, that student will lose transportation services for 3 days.
2. Upon receipt of the 3rd written report with in a semester from a bus driver concerning a student, that student will lose transportation services for 5 days.

3. Upon receipt of the 4th written report within a semester from a bus driver concerning a student, the student will lose transportation services for the balance of the current semester.

Students receiving a written report on the bus that warrants suspension will be provided transportation home that day. A copy of the written report and notice of any suspension will be sent home that evening. The suspension will begin the next school day.

The building principal, if student behavior is serious enough to warrant, may bypass any of the above steps and adjust, restrict, or suspend a student's bus riding privileges for an indefinite time after conferring with the parents. The bus is an extension of the school day. All school rules still apply.

The district will comply with the current status and regulations as defined by the Legislature, Kansas State Department of Education and the Kansas Department of Health and Environment

To comply with the Nurse Practice Act (K.S.A. Chapter. 65, Article 11, Chapter 231, Laws of Kansas 1968 and K.S.A. 1979 Supp. 65-1113 and 65-1124) the following policy is in effect:

- A. When at all possible, medications should be given at home rather than during school attendance hours.
- B. Prescribed medications must be accompanied by a note from the physician and in the original container the medicine came in. We need a note from the parent giving us permission to give the medication at school. This should include date, name of medication, reason for medication, time of day it is to be given, and anticipated number of days to be provided. There is an available form.
- C. Any over-the-counter medications may be given at school only if needed in order for the student to remain in attendance. This can be determined by conference between parents and school nurse. A parental permission form must accompany the medication, to include date, name of medication, reason for medication, time of day it is to be given, and anticipated number of days to be provided.
- D. Medication may be given by delegated school personnel under the supervision of the school nurse. In accordance with Kansas Department of Health and Environment guidelines, the school will allow self-administration of medication to children and youth, provided the proper authorization is on file with the school.

Please contact the school health aide if you have questions concerning administration of medication in school.

4620 - HEAD LICE

Schools bring large number of children into daily contact with each other, therefore, they serve as a focal point for the transmission of head lice.

When an infested student is discovered in the classroom the following procedure will be followed:

- A. If the student(s) are bus riders, they will not be permitted to ride the bus until cleared by the school nurse.
- B. When the child returns to school he/she will be checked prior to readmission.
- C. No child will be readmitted to school unless they have been treated and/or all nits have been removed.
- D. After three consecutive cases of head lice, the student must have a statement from the Health Department to return to school. If the patient fails to eliminate the head lice problem, then SRS will be notified.
- E. A child with head lice will be excused from school for a 24 hour period. After that time the child must be treated and returned to school to be cleared by the school health aide.. After 24 hours if the student is not brought back or is not cleared by the school health aide, the absences will be unexcused.

Please check your child(ren) weekly for head lice. Doing so will help any severe outbreak from occurring.

4630 - INTERROGATION AND INVESTIGATIONS CONDUCTED IN SCHOOL

It shall be the policy of the district that a reasonable cooperative effort be maintained between the school administration and law enforcement agencies. Law enforcement officials may be summoned in order to conduct an investigation of alleged criminal conduct on the school premises or during a school-sponsored activity. They may also be summoned for the purpose of maintaining or restoring order when the presence of such officers is necessary to prevent injury to persons or property. Administrators have the responsibility and the authority to determine

when the presence and assistance of law enforcement officers is necessary within their respective jurisdictions. The district's administrators shall at all times act in a manner which protects the rights of students and parents and shall cooperate with law enforcement officials.

School staff members shall be reminded annually of the contents of this policy and rules.

Initiated by School Administrators and Conducted by Administrators

Building principals shall have the authority and duty to conduct investigations and to question students pertaining to infractions of school rules, whether or not the alleged conduct is a violation of criminal law. Any investigation shall be conducted in a manner which minimizes interference with regular education or school activities.

Initiated by School Administrators and Conducted by Law Enforcement Officers

The building principal shall determine when the necessity exists for law enforcement officers to be notified to conduct an investigation of alleged criminal behavior.

The building principal may request the law enforcement officers conduct an investigation and question students who are potential witnesses of such alleged criminal behavior during school hours. A reasonable attempt shall be made to contact the student's parents, guardian or representative prior to questioning by law enforcement officers. Reasonable requests of the parents, guardian or representative shall be observed. Such notifications or attempted notifications to parents, guardian or representative shall be documented by the administrator involved. In the absence of a student's parents, guardian or representative during any questions of such students, the Principal or certified school staff person shall be present.

If the investigation has centered on any particular student suspected of any alleged criminal activity, the procedure for taking students into custody shall not interfere with reasonable law enforcement procedures.

Initiated and Conducted by Law Enforcement Officers

Only in demonstrated emergency situations shall law enforcement officers be voluntarily permitted to conduct such an investigation during school hours.

The building principal shall require proper identification of law enforcement officials and the probable cause for the interrogation or investigation of a student. If the Principal is not satisfied with either the identification or the probable cause, he/she shall not grant the request of such persons and shall attempt to so notify the Superintendent and the officer's superior, documenting such action.

The law enforcement officers shall be required to obtain prior approval of the Principal before beginning such an interrogation or investigation on school premises. The administrator shall document the circumstances as soon as practicable.

Interrogation of Student During Investigation of Violations of School Rules

In instances where school rules have allegedly been violated, the Principal may notify the suspected rule violator(s). When suspension may be a consideration, the suspect student shall be advised orally or in writing of the nature of the alleged offense and of the evidence.

Probable witnesses should be told the nature of the alleged misconduct and the reason for believe that they were witnesses. The Principal may have another adult present during questioning of students.

Violations of Criminal Law

During an investigation of violation of school rules, the Principal shall attempt to ascertain whether there is sufficient justification to believe that a criminal offense was committed that warrants notification to law enforcement officials.

Information of criminal conduct not related to the schools shall be turned over to law enforcement officials, without additional investigation by school officials. School officials shall request that law enforcement officers advise a student of his/her rights.

Taking a Student Into Custody

Following interrogation or investigation, students shall not be released to law enforcement authorities voluntarily by school officials unless the student has been placed under arrest.

When students are removed from school for any reason by law enforcement authorities, every reasonable effort will be made to notify the student's parents, guardian or representative immediately. Such effort shall be documented.

The building principal shall make reasonable efforts to persuade law enforcement officers not to make arrests or to take students into custody on school premises.

When an emergency exists, the Principal may summon law enforcement officials to the school to take a student into custody.

When a student has been taken into custody or arrested on school premises without prior notification to the building principal, the school staff present shall require the law enforcement officers to notify the Principal of the circumstances as quickly as possible.

Disturbance of School Environment

Law enforcement officers may be requested to assist in controlling disturbances of the school environment.

4700 - HUMAN SEXUALITY/AIDS

In accordance with Kansas law, the Board of Education of Northeast U.S.D. 246 has adopted a policy and curriculum for the teaching of Human Sexuality and Aids. Copies of this policy are mailed to the parents/guardians of those students involved prior to the beginning of teaching of the unit.

4800 - HALLWAY TRAFFIC

Students should make an effort to be quiet in the halls. Conduct yourself in the halls in a way which will be a credit to yourself and your school. Keep to the right side of the hall at all times. Do not run in the hallway at any time. Keep hands and feet to yourself and away from student work or other decorations that may be posted or displayed.

5000 - DISCIPLINE

Our goal for our discipline policy is to create a safe, positive and effective learning environment and to help students develop into responsible and conscientious citizens.

Student Expectations

Character: The following is a list of character traits we expect our students to exhibit each day at school, on field trips, and during extracurricular activities.

RESPONSIBILITY

RESPECT

READINESS

Given the expectations listed above our students will be expected to conduct themselves appropriately at all times and in all settings.

- Students will treat their peers, teachers, paraprofessionals, and support staff with respect and courtesy at all times
- Students will respect the facility and grounds
- Students will abide by the policies, rules, and regulations as set forth by the school and USD #246 district board policy.

Disciplinary Methods Utilized in our Policy:

After-School Detention – 3:15 – 4:30 p.m. Assigned by the Principal. Parents will be given at least one day notice of detentions. The principal will work with parents to arrange a day for the student to serve the detention. Failure to attend detention will result in an In-school suspension.

In-School Suspension - Disciplinary measure used for more severe offenses. Assigned by the Principal. Students are not allowed on school property or at events during suspension. (1-3 days suspension)

Out-of-School Suspension – Disciplinary measure used for more severe offenses. Assigned by Principal. Students not allowed on school property or at events during suspension. (1 – 10 days suspension)

Long-Term Suspension – Suspension of up to 90 school days. Formal due process hearing is required.

Expulsion – Student expelled from school for up to 186 school days. Formal due process hearing is required.

Minor Infractions

Each Elementary teacher has a discipline plan for his/her classroom that the teacher will send home with the child by the end of the second week of school. There will be consequences for inappropriate behavior and positive behavior will be encouraged and reinforced. Discipline plans of the special classes (PE, Music, Library and Computers) are very similar to those of the child's assigned classroom.

The Junior High staff will use the student conduct sheets to document minor infractions. The conduct sheets are distributed to students at the start of each quarter (see example on page 30). Some examples of minor infractions are: excessive talking, horseplay, dress code violations. The student conduct card is based on a 9-week period. Once a student receives five "strikes" on the card, the teacher issuing the fifth strike will send the student with their conduct sheet to the Principal. The Principal assigns the appropriate consequence for the level completed.

As the Junior High student advances through the card system, the consequences become more stringent. The penalties are listed on the appropriate level on the conduct sheet and are as follows: **Level One** – detention, **Level Two** – 1 day In-School suspension, **Level Three (15 strikes)** – 3 days In-School suspension, **Level Four and up (20 strikes +)** - 3 days Out of School

Assigning a Strike: When a student commits a minor infraction and the teacher decides to assign a strike on the student's conduct sheet, the teacher will ask the student to present their conduct sheet. Depending on the class activity, the teacher may immediately fill out the conduct sheet and return it to the student. However, if the teacher is delivering instruction, the teacher may collect the conduct sheet and wait until the end of the period to fill out the sheet before returning it to the student. The teacher will jot down the date, teacher's last name, infraction # (they are listed on the conduct sheet), and may include a very brief explanation of the infraction.

Not being prepared for class marks are kept separately on the card. Five marks for not being prepared for class will count as one strike on the conduct sheet.

Student Fails to Present Their Conduct Sheet: When prompted to give a teacher his/her conduct sheet, the student must do so immediately without argument. Failure to present the conduct sheet may result in the predetermined consequence for the current level of the student. However, if a student brings their conduct sheet to the teacher or the office by the following morning before school, that consequence will be taken away and the appropriate strike will be assigned to the student. Students who lose their conduct sheet must replace it and will receive an additional strike.

Conduct Sheets are used as official school documentation. The defacing of a conduct sheet may result in disciplinary action.

Major infractions

In an effort to maintain a safe learning environment serious discipline issues will be handled in a swift and appropriate manner. It is the responsibility of the Principal to investigate each incident and administer an appropriate consequence. Major offenses include but are not limited to:

Cutting Class	Vandalism	Disrespect / Defiance
Drugs/Alcohol	Bullying / Harassment	Threat / Intimidation
Weapons	Public Display of Affection	Sexual Harassment
Firearms/ Explosives	Fighting / Aggressive Behavior	Improper Language
Behavior Problems / Failure to appear in Detention	Academic Dishonesty / Copy Write/Theft Major Computer Violations	Not attending school when others have a reward day off

Major offenses may result in:

Academic Consequences

Detention

In-School Suspension

Short Term Suspension

Long Term Suspension or Expulsion (only with appropriate disciplinary hearing)

The Principal reserves the right to determine the most reasonable and meaningful consequence for major infractions.

Demerits/ Loss of Privileges:

A point or demerit system is in effect in our Junior High. The purpose of this system is to discourage habitual disruption of the learning environment. Students who commit a major violation will receive the number of demerits that corresponds to their consequence..

Detention – 1 demerit

In-School Suspension- 1 day only -- 2 demerits

In-School Suspension - (2 or 3 days) -- 3 demerits

Short Term Suspension - (up to 10 days) – 4 demerits

Long Term Suspension - (up to 90 days) – 5 demerits

When a Junior High student receives more than 3 demerits in a nine weeks, they will be excluded from any rewards (bowling, movies, dances, field trips, etc.)

Elementary students that have frequently violated school rules may be excluded from any rewards such as: bowling, movies, assemblies, field trips, and field day, etc.

The Principal reserves the right to adjust the consequences for special circumstances.

The Principal will turn over to law enforcement, infractions that are violations of law.

- b. To calm down if students become frustrated or aggressive
- c. As a disciplinary actions for rule violations

5200 - OUT-OF-SCHOOL SUSPENSION

Any student may be sent home for misbehavior that the Principal deems reasonable cause for suspension. Suspension will be for such time as the Principal or Superintendent determines necessary for proper adjustment. A conference between the pupil, his/her parents and school officials may be necessary so that a proper understanding is reached concerning the pupil's continued attendance, subject to K.S.A. 72-8901 thru 72-8906 as amended by the 2000 Kansas Legislature.

For out-of-school suspension, homework will be available to the student by the end of the first full day of suspension. It is the parent's responsibility to obtain the homework from the office. Homework not turned in to the appropriate teachers upon returning to school shall be recorded as zero credit.

5300 - TOBACCO PRODUCTS IN PUBLIC SCHOOLS

KSA 72-53, 107 prohibits the use of tobacco products in any school buildings and states that no board of education of any school district shall allow any person to use tobacco products in any school building. Furthermore, the Northeast U.S.D. 246 Board of Education prohibits the use of tobacco products in all district owned buildings and vehicles.

5310 - DRUG AND ALCOHOL POLICY

The Board of Education and educators of Northeast U.S.D.246 recognize the illegal use of drugs and alcohol as being detrimental to the positive development of the students. The school's primary role in this area is to educate students concerning the hazards of drug and alcohol use.

All Northeast U.S.D. 246 personnel and students have the responsibility to report to the Principal observed use or knowledge of any chemical substance. These chemical substances include any narcotic drug, alcohol, hallucinogenic drug, amphetamine, barbiturate, marijuana, solvent, or narcotic device, unapproved Rx drugs.

Students shall not unlawfully manufacture, distribute, possess, use, or be under the influence of any chemical substance:

- C. upon arrival at school or a school function.

(1) First offense - With the first violation of this policy, the student will be suspended from school for 5 days and can be subject to long term suspension or an expulsion hearing. The expulsion hearing will include a discussion of a recommendation that the student receive an evaluation and any necessary counseling from a professional chemical dependency counselor prior to re-admittance to school on a probationary status. If at anytime a student fails to make satisfactory progress in a program, the expulsion will be re-imposed.

(2) Second Offense – A student who violates the terms of the policy for the second time shall be expelled from school for the remainder of the school year and will not be allowed to participate in or attend any school activities during the expulsion.

Students who are suspended or expelled under the terms of this policy will be afforded the due process rights contained in board policies and Kansas statutes, K.S.A. 72-8901, et seq. Nothing in this policy is intended to diminish the ability of the district to take other disciplinary action against the student in accordance with other policies governing student discipline. In the event a student agrees to enter into and complete a drug education or rehabilitation program, the cost of such program will be borne by the student and his or her parents. Drug and alcohol counseling and rehabilitation programs are available for students of the district. A list of available programs along with names and addresses of contact persons for the program is on file with the board clerk.

A copy of this policy and available counseling and rehabilitation programs will be provided to all students and the parents of all students. Parents of all students will be notified that compliance with this policy is mandatory.

5311 DRUG TESTING POLICY GRADES 7TH AND 8TH:

NORTHEAST USD 246 STUDENT DRUG TESTING POLICY

Approved by the Northeast USD 246 Board of Education
Effective 2015 - 2016 School Year

In an effort to protect the health and safety of Northeast USD 246 students from illegal and/or performance-enhancing drug use and abuse or injuries relating from the use of drugs/alcohol, and to set an example for all students, the Northeast USD 246 Board of Education has adopted the “Student Drug Testing Policy” for drug testing of students participating in or attending extracurricular and/or co-curricular activities as well as students parking in the school parking lot. The Board recognizes that all students have certain personal rights of privacy guaranteed by our federal and state constitutions. This policy will not infringe on those rights.

STATEMENT OF PURPOSE AND INTENT

A. It is the intent and desire of the Northeast USD 246 Board of Education, Administration, and staff that every student in Northeast USD 246 refrain from using, possessing, or distributing illegal drugs and/or alcohol, and to help students make good decisions. The actions of this policy relate solely to limiting the opportunity of any student in violation of this policy to participate in or attend extracurricular and/or co-curricular activities. This Policy is intended to supplement and complement all other policies, rules, and regulations of Northeast USD 246 regarding possession and/or use of illegal drugs and/or alcohol.

B. Participation in or attendance at school sponsored extracurricular and co-curricular activities, as well as parking in the school parking lot is a privilege. Accordingly, students participating in or attending extracurricular and co-curricular activities carry a responsibility to themselves, their fellow students, their parents, and their school to set the highest possible examples of conduct, which includes avoiding the use or possession of illegal drugs and alcohol.

C. The purpose of this policy is to prevent illegal drug use and to create an environment free of illegal drug use and abuse. The sanctions of this policy relate solely to limiting the opportunity of any student in violation of this policy to participate in or attend extracurricular or co-curricular activities. No academic sanction for violation of this policy will occur, except to the extent that a violation of this policy would also constitute a violation of the school's discipline policy. If the school's discipline policy regarding drug/alcohol use is violated, the student will be subject to the penalties of the discipline policy.

D. The purpose of this policy is to educate students as to the serious physical, mental, and emotional harm caused by drug use; alert students with possible drug problems to the potential harms of use; prevent injury, illness, and harm as a result of drug use; and maintain in the school district an environment free of drug use and abuse. Northeast USD 246 has adopted this policy for use by all students participating in or attending extracurricular and co-curricular activities in grades 6-12 and students parking in the school parking lot grades 9-12.

DEFINITIONS

ACTIVITIES—Includes any school sponsored activity in the following three categories: Kansas State High School Activities Association (KSHSAA) sanctioned activities, competitive activities, and non competitive activities. The activities, by categories, are as follows:

KSHSAA Activities, including but not limited to: Athletics, Choir, Speech and Debate, Cheerleading, Scholars Bowl, and KAY Club.

Co-Curricular Activities: Activities that students participate in outside of the classroom as a result of being enrolled in a school offered class, including but not limited to: FCCLA, National Honor Society, Student Council, Class Leadership, Yearbook, School Sponsored Clubs, and TRL Competitions.

Extracurricular Activities: Activities that take place outside the regular course of study in school, including but not limited to: Baseball, Basketball, Chess Club, Cheerleading, Football, Softball, Track, Volleyball, Weights, Prom, School Sponsored Dances, Reward Based Trips, and Senior Trip.

Parking Privilege Permits: Student privilege to park on school grounds.

DRUG USE TEST- A scientifically substantiated method to test for the presence of illegal drugs, performance-enhancing drugs, or alcohol in a person's urine, saliva, hair or breath.

ILLEGAL DRUGS- Any substance that an individual may not sell, possess, use, distribute, or purchase under federal or Kansas law. Examples would include, but are not limited to, all scheduled drugs as defined by Kansas law, all prescription drugs obtained without authorization, and all prescribed and over-the-counter drugs being used for an abusive purpose, as well as alcohol.

PERFORMANCE-ENHANCING DRUGS- Includes anabolic steroids and other natural or synthetic substance used to increase muscle mass, strength, endurance, speed, or other athletic ability. Dietary or nutritional supplements such as vitamins, minerals, and proteins that can be lawfully purchased in over-the-counter transactions are not included in the term "performance-enhancing drugs."

POSITIVE RESULT- A toxicology test result that is considered to demonstrate the presence of an illegal or a performance-enhancing drug or the metabolites thereof using the standards customarily established by the testing laboratory administering the drug use test. "Positive" when referring to an alcohol test administered under this policy means a breathalyzer test result that is considered to demonstrate the presence of alcohol.

REASONABLE SUSPICION- Specific personal observations concerning the appearance, speech, or behavior of a participating student, and reasonable inferences drawn from those observations in light of experience, poor performance by a student, group of students or team inconsistent with perceived ability, expectations and teaching/coaching, and information provided by a reliable source based on personal knowledge, shall constitute reasonable suspicion. In the context of performance-enhancing drugs, reasonable suspicion could include unusual increases in size, strength, weight, or other athletic abilities.

RANDOM SELECTION- Random selection can include individual students, groups of students or teams selected for testing based upon an objective random selection process or a rotating schedule. The Northeast USD 246 Board of Education contemplates that a minimum of two (2) middle school students and eight (8) high school students will be subject to drug testing under this policy at various intervals of time, approximately twice each month.

SCHOOL DAYS- Days that school is actually in session in Northeast USD 246.

EDUCATION AND CONSENT

A. The school shall provide a drug policy education for students within one week of the policy implementation. The session will include a detailed explanation of the Northeast USD 246 Student Drug Testing Policy.

B. In addition the Principal will review the policy each year on the first day of school and with any new students upon their arrival to school. In addition, it is recommended that each coach/sponsor conduct a player and parent meeting that will include information about the impact of the drug testing policy on participants. Parental attendance is strongly encouraged at each session. Each student in grades 6-12 will be provided copies of the Northeast USD 246 Student drug Testing Policy and of the Student Drug Testing Consent Form.

C. Each student who desires to participate in or attend extracurricular and/or co-curricular activities or to park in the school parking lot must agree online to the Student Drug Testing Consent form, electronically signed and dated by the student and by the student's parent or guardian within the first five (5) days of the start of the school year. Transfer students will have five (5) days from their date of enrollment. Failure to consent to the properly signed consent form within the time limits set forth in this policy will keep a student from participating in or attending extracurricular and/or co-curricular activities as well as parking privileges on campus being revoked.

SELECTION FOR TESTING

A student may be subject to drug testing under this policy in any of the following circumstances:

A. Upon request at any time the administration determines there is reasonable suspicion to believe the student has used or is under the influence of illegal or performance-enhancing drugs or alcohol;

B. Upon request by the administration based upon an objective random selection process from among all students in the particular pool of students to be tested;

C. As a member of a recognized club or group of students or team based upon a rotating schedule of similar clubs, groups and teams as determined from time to time by the administration; and

D. Students attending school sponsored extracurricular and/or co-curricular activities may be required to submit to an alcohol breath analyzer test prior to entry to determine the presence of alcohol, or at anytime requested by administration, based upon reasonable suspicion.

PROCEDURE

A. Any drug use test required under this policy will be administered by a professional laboratory chosen by Northeast USD 246, using scientifically validated toxicology methods. The professional laboratory shall be required to have detailed written specifications to assure chain of custody of the specimens, proper laboratory control, and scientific testing.

B. All aspects of the drug-testing program, including the taking of specimens, will be conducted in a manner to safeguard the personal and privacy rights of students to the maximum degree possible. The test specimen shall be obtained in a manner designed to minimize intrusiveness of the procedure. In particular, the specimen must be collected in a restroom or other private facility. The student will empty his or her pockets and remove his or her coat and other excess clothing prior to entering the restroom or other private facility. The Principal shall designate a drug laboratory employee or school employee of the same gender as the student to accompany the student to a restroom or other private facility. When collecting a urine sample, the monitor shall not observe the student while the specimen is being produced, but the monitor shall be present outside the stall to listen for the normal sounds of urination in order to guard against tampered specimens and to ensure an accurate chain of custody. If at any time during the testing procedure the monitor has reason to believe or suspect that a student is tampering with the specimen, the monitor may stop the procedure. At this time the monitor will inform the principal, who will then determine if a new sample should be obtained. The monitor will be present to collect the sample along with the student and one other witness.

C. If the initial drug test is positive, the initial test result will then be subject to confirmation by a second test.

D. If the second test confirms the presence of drugs or alcohol, the laboratory will report the results to the designated school representative. The school will then contact the parents of the student with the results and will solicit information regarding any medications the student may be taking. If needed, the school will contact a certifying scientist at the laboratory regarding any drug interactions. If requested, a medical review officer will review and confirm the results and report the findings to the designated school representative.

E. The Principal will contact the Superintendent, athletic director, head coach/sponsor, student, and parent/guardian to schedule a conference. At the conference the Principal will solicit any explanation of the positive test result. If the student asserts the positive test results are caused by something other than consumption of an illegal drug, performance-enhancing drug, or alcohol, the student will be given the opportunity to present evidence of such to the Principal, athletic director, and head coach/sponsor. The school district will rely on the professional opinion of the laboratory that performs the confirmation test in determining whether the positive test result was produced by something other than the consumption of an illegal drug, performance-enhancing drug, or alcohol. The Principal, Superintendent, athletic director and coach/sponsor will make the decision within three (3) working days.

F. The decision may be appealed in writing to the Northeast USD 246 Superintendent within three (3) working days. The Superintendent will then make a written decision within three (3) working days. During the time of this appeal, the student will not be eligible to attend, participate in, or compete in extracurricular and/or co-curricular activities or to use the school parking lot.

G. The Superintendent's decision may be appealed in writing to the Northeast USD 246 Board of Education within three (3) working days. The Superintendent will then make a written decision within three (3) working days. During the time of this appeal, the student will not be eligible to attend, participate in, or compete in extracurricular and/or co-curricular activities, or to use the school parking lot.

H. NORTHEAST USD 246 SOCIAL MEDIA POLICY

**Approved by the Northeast USD 246 Board of Education
Effective 2015-2016 School Year**

Northeast USD 246 recognizes that many of our staff, students, parents and community members are active social media users. As a school district, we are also incorporating social media as part of our communications strategy.

The purpose of this social media policy is to help you to participate online in a respectful, relevant way that protects your reputation and the reputation of Northeast USD 246, and respects the relationship between teachers and students.

For the purposes of this policy, social media includes but is not limited to social networking and media sharing sites such as Facebook, Twitter, LinkedIn, Google+, Flickr, Tumblr, and YouTube. It also includes blogs, comments on web sites, discussion forums and any other activity online in which a person connects or communicates with other users.

The administration reserves the right to monitor, and will monitor, use of Northeast USD 246's computers, email, Facebook, and other social media and networking sites. This policy complements, but does not replace, any policies regarding the use of technology, computers, e-mail and the internet adopted from time to time by the Northeast USD 246 Board of Education.

A. Your Personal Responsibility:

We encourage responsible participation in social networking sites, subject to policies concerning the use of social media during work hours. We ask that you carefully consider the very public forum in which you are participating and expect you to act in a way that properly represents both your professional reputation and that of Northeast USD 246.

Express your ideas and opinions in a respectful manner. Seek to build trust and responsibility in your relationships. Avoid insulting others, including students, staff, parents, our extended school community, or other school districts. Do not use racial slurs, innuendos, obscenities or other inappropriate content. Avoid engaging in or commenting on rumors or unsupported information. Represent Northeast USD 246 and the students and parents you serve in the best light. Your posts and comments should help build and support the school community. You are responsible for what your post and communications that would be deemed inappropriate or actionable if they occurred inside or outside of the classroom do not become acceptable merely because they are made online. Always bear in mind that once posted, you cannot take it back. You shall comply with the following specific guidelines:

1. Use common sense when posting online. While these guidelines are in no way intended to limit or infringe upon your rights under the National Labor Relations Act (“NLRA”) to comment upon the workplace, it remains good practice to never post anything that would embarrass you or Northeast USD 246, or would call your professional reputation into question.
2. You are personally responsible for the content you publish online. “Content” includes personal comments, Links, photographs, audio or video, and content created by other users that you choose to share or re-post.
3. Be mindful that any content you publish will be public for a long time. Not only can your content show up in Google and other search engines, but the FTC allows private corporations to store publicly accessible Facebook posts for a period of some seven years to be used in employee background checks made by current or potential employers. Moreover, even posts that are “private” may be subject to discovery in legal actions.
4. You should also be mindful that once posted, a comment cannot be taken back. In most instances deleting content will not make it disappear. Deleted content can still show up in online searches or, with the click of a button, other users can take a screenshot, re-post, or share your content with others. Even if you share your content with a very limited number of people, nothing prohibits your contacts from sharing the information you post.
5. Before you post or share content, ask yourself if you would want to see that content in the newspaper or on the evening news? Would you feel comfortable if your content was read by colleagues, your students, parents, principal, superintendent, or members of the Board of Education? If the answer is “no” then the content is best not shared.
6. Special care should be taken when posting personal photographs. Remember, your social networking site is an extension of your personality and professional reputation. All photographs should be posted with the assumption that they will end up in the public realm.

7. As an employee of Northeast USD 246, content that you post may not include provocative photographs, sexually explicit messages, content showing or promoting the consumption of alcohol or use of drugs, or any activity students are legally prohibited from doing. Remember, even with privacy setting in place, your content could be seen by students or parents or find its way into the public realm.
8. The lines between public and private, personal and professional are blurred in the online world. When you are online, you may be connected to colleagues, students, parents and the school community. Sometimes those connections may be direct and obvious. At other times the connections may be indirect or via mutual connections. You should ensure that content associated with you is consistent with your responsibilities as an employee of Northeast USD 246.
9. Your online behavior should reflect the same standards of honesty, respect, and consideration you apply offline.
10. Protect your privacy. You are responsible for understanding and controlling privacy settings on each social network you use. Always assume default settings will make your profile and any content you share publicly accessible. You should also understand that even with maximum privacy settings in place, content can still find its way into the public domain.
11. At no time shall you claim to be speaking or issuing opinions on behalf of Northeast USD 246, unless and except if you specifically are authorized to do so by the Superintendent of Schools. In instances where there could be confusion, you must add a disclaimer stating that views and content are exclusively your own and not representative of Northeast USD 246.
12. While the Northeast USD 246 respects the rights of its employees to exercise their rights under the NLRA, employees should not make any derogatory statements about colleagues or students or other comments that would reflect badly on your professional reputation or the reputation of Northeast USD 246. Notwithstanding the foregoing, you may make comments in the exercise of your rights under the NLRA. You are ultimately responsible for your comments and Northeast USD 246 recommends that you thoughtfully consider your rights and responsibilities prior to posting.
13. Do not post photos or videos that contain identifying information concerning any students without the prior written consent of a parent or guardian of each student involved. There will be a permission form for parents to sign during enrollment.
14. Respect the privacy and rights of both colleagues and students. Confidential student or personnel information should not be posted online. You should become familiar with and make sure anything you post will not violate any provision of the Family Educational Rights and Privacy Act.
15. Do not use any school logo or image without the prior written permission of the Superintendent of Schools.
16. Do not create any social media account, blog or website intended to represent

Northeast USD 246 without express prior consent of the Superintendent. It is important for us to protect the district's brand, ensure certain brand standards and content guidelines are maintained, and ensure any new accounts fit overall communications and education standards established by Northeast USD 246.

B. Employee-Student Relationships:

Northeast USD 246 recognizes the important role that communication and collaboration between employees and students play in the educational process and experience. Northeast USD 246 further recognizes that the advancement of electronic communication and social media technologies creates greater opportunity for interactions between employees and students, and therefore provides these additional guidelines for your own and our students' protection.

1. Employees are never under any obligation to accept friend or follower requests from any student and shall not, under any circumstances, use personal social media accounts to engage with students or participate in district projects. Northeast USD 246 strongly discourages employees from sending or accepting friend requests from current students or otherwise from participating with current students in emails, Facebook or other social media or networks. You should bear in mind that unless your account has privacy settings correctly configured, everything you post may be publicly accessible to your students whether you are connected to them or not.
2. Employees must exercise great care in connecting with students on any social media channels. Do not send permission-based friend or follower requests to students, for example Facebook friend request. Use discretion and carefully consider the guidelines provided by Northeast USD 246 before accepting any permission-based friend or follower requests received from students. It is Northeast USD 246's recommendation that if an employee decides to accept friend or follower requests received from students, the employee should accept all such requests, and not selectively limit the employee's interactions to what could be perceived as a few preferred individuals.
3. Any employee-student communications or relationships via social media should be of an appropriate professional nature, have content that is appropriate for both the communications medium and the audience addressed, and must not violate any provisions of the Family Educational Rights and Privacy Act. With each communication, ask yourself if it is something you would feel comfortable being printed in the newspaper, read by parents, colleagues, or members of the Northeast Board of Education. As with content, always assume any communication will end up in the public realm.
4. Employees who are connected to or communicate with students via social media must understand they may be granting those students access to all content in their personal social media profiles and should consider this policy and ensure that students are protected from exposure to inappropriate content or content that might compromise the employee's professional reputation.
5. Employees shall ensure that any relationship and all dialogue with a student is kept professional in its nature and immediately shall report to the superintendent or

designee any inappropriate communication received from a student. This is as much for your protection as the students. Any content or communication generated either by you, or by a student, which would be inappropriate in the classroom should also be considered inappropriate when shared via social media.

6. Northeast USD 246 recognizes there may be certain limited exceptions to these guidelines, such as a student being a family member or relative, or in those instances where an employee's interaction with a student is a result of certain extra-curricular activities such as Boy Scouts, Girl Scouts, religious organizations or other similar relationships.
7. All posts and messages between teachers and classes, coaches and team members, and advisors and club or group members shall be sent to all members of such class, team, club or group, except for messages concerning (a) inquiries about specific assignments, and (b) medical or academic privacy messages, which messages shall be copied to the principal or athletic director, as appropriate.

8800 - SPECIAL EDUCATION SERVICES

Unified School District #246 strives to provide for the educational needs of all students. Among these are instructional and support services for exceptional students, including handicapped and gifted.

These services are provided to our students through membership in the Southeast Kansas Interlocal #637. Through membership in the cooperative we join twelve other districts in providing an appropriate education to all our exceptional children and youth.

Acquisition of these services through an interlocal is necessary due to reasons of small incidence of exceptional children, economy in providing the services and the ability to serve the varying needs of these children.

For information regarding these programs, services, and procedures for referral for comprehensive evaluation for the exception child, please call the USD 246 Board of Education Office or the Director of the Southeast Kansas Interlocal, 400 N. Pine, Pittsburg, Kansas 66762, phone 620-235-3180.

During the Student Improvement Team process at Northeast, information is gathered to facilitate the team in making decisions based upon data. The data collected may include:

- Observations
- Interviews- students and parents
- Work samples
- Grades
- AIMS reading and math reports
- Kansas Assessment scores
- Attendance
- Behavior Reports

Teachers, parents, and students can all request assistance by the Student Improvement Team (SIT) process. After a student's initial meeting and the writing of the Student Improvement Plan; the student's progress is periodically monitored to make sure they are progressing in the right direction. Additional meetings will be scheduled when needed.
